

# Driver240-1M24V

LED Waterproof Constant Voltage Driver

### Product Feature

- ·Wide input voltage with active PFC,full loading output
- ·Ultra-thin design,save install space
- ·Adapt to the harsh working environment
- ·Isolated design, safe and reliable
- ·Protections: overload, over temperature short circuit, lightning protection etc.
- $\cdot \texttt{Conformed with CE/CB/CCC/SELV certification}.$
- •The typical efficiency up to 93.5%
- ·Protect level IP67
- ·Warranty 5 Years

# Application

## **Technical Parameters**

| Model              | Driver240-1M24V         |   |
|--------------------|-------------------------|---|
| Input              | Efficiency              | 93.5%@230VAC, Full load   |
|                    | Voltage                 | 100VAC-240VAC   |
|                    | Frequency               | 47~63Hz   |
|                    | Power Factor            | >0.95   |
|                    | THD                     | <10%230VAC, Full load   |
|                    | Current                 | 3.2Amax@230VAC  |
|                    | Inrush Current          | Cold start <50A @230VAC(full load)  |
| Output             | Current/Voltage/Power   | 10A/24VDC/240W  |
|                    | Ripple Current          | <240mVp-p   |
|                    | Channel                 | 1   |
|                    | Voltage Tolerance       | ±5%   |
| Protection         | Short Circuit           | Auto recovery when failure is removed   |
|                    | Over Voltage            | <28VDC Shut down the output, After restart recovers automatically                           |
|                    | Over Current            | <13A auto recovery when failure is removed  |
| Safety<br>&<br>EMC | Surge                   | L-N:2kV,L,N-FG:4kV  |
|                    | Withstand Voltage       | I/P-0/P:3000VAC/5mA I/P-FG:1500VAC/5mA 0/P-FG:500VAC/5mA                                    |

#### Cautions

- 1 This product should cut off the input voltage and installed by a professional.
- 2 Make sure that the output voltage and current of the power supply must meet the specifications of the lamp before installation.
- $\ensuremath{\mathtt{3}}$  It is waterproof IP67,do not soak in water for a long time when using.
- 4 The driver should be installed in a well space and environment.
- 5 The sectional area of the conductor wire which connect to the driver and lamp should be enough (Recommended less than 4A/mm²).
- 6 Make sure all connections are correct and secure before powering up.
- 7 If break down during use, it must be repaired by a professional or contact the supplier.

The external flexible cable or cord of this luminaire cannot be replaced; if the cord is damaged, the luminaire shall be destroyed.
